## French Spelling Quiz - Accents Free License Key

French Spelling Quiz - Accents Review: French Spelling Quiz - Accents is a nice and easy to use software that will easily keep your French vocabulary in good shape and help you to achieve the perfect level of proficiency in the language. Written by Antoine Martin, a French native speaker, French Spelling Quiz - Accents helps you to improve the language learning process by providing a good amount of vocabulary (more than 4,000 words) and grammar (80 small sentences, including 65 verb forms, and 15 verb phrases). This software is a nice addition to your vocabulary toolkit, as it works very well with our VocabuListner software. It is easy to understand, it offers a quick and easy access to the French context, and it helps to improve your French vocabulary. You can easily define which language level you want to train with this software, be it beginner, intermediate, advanced, or native level. French Spelling Quiz - Accents includes lots of test forms, ranging from basic to advanced level. You will be able to test your French vocabulary in more than 25 categories, including geography, science, history, politics, and many other. Simply choose the question form you want to test and press Start. The program will show you a vocabulary list and an example of how to write a question. You will then have to decide whether to accept the correction and click Yes or No, or you can skip the selected word (that's what I do, I find the software very intuitive and easy to use). After that you will be offered with the option to choose an accented form of the selected word. You will be able to test your ability in French grammar, as well. You will be offered with different sentences that you will be able to complete. If you are in the process of learning the language, you will easily find useful questions for your skill development. A nice touch is the fact that there is also an option to download answers in French or English. Therefore, if you are a student or a teacher, you can be confident that you will not lose the most valuable investment you are making in your language learning process. French Spelling Quiz - Accents is a simply to use application and I highly recommend it to all French beginners. Pros: Well-designed. Language-friendly design. With lots of test forms. Newest Update. Many categories
